

Compassion is our currency.

International Grant Distribution Checklist

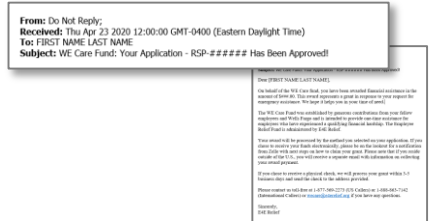

Applied for a grant, but have not received it yet?

Check to make sure all the following has occurred:

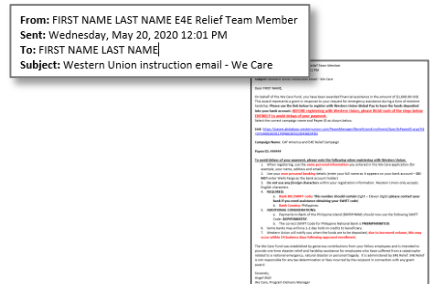

1 You submitted a grant application and received a submission verification on your screen and via email. A status of “Pre-verify” means your application has not been submitted.

2 You received an Application Approved email from E4E Relief stating that you have been awarded financial assistance and should be on the lookout for a follow-up email from an E4E Relief team member

3 You received a Western Union instruction email from an E4E Relief team member including specific instructions for registering with Western Union. You followed the instructions and enrolled.

4 You registered with Western Union following the instructions in the email, and received an on-screen confirmation

5 You received enrollment approval email from Western Union GlobalPay Payee Manager

If you have followed all the above instructions, and it has been six weeks since you have enrolled with Western Union, please contact E4E Relief at Paymentsintl@e4erelief.org and include your name and case number (RSP #) in the subject line. Please do not contact Western Union or CAFA; it may delay your grant award.
